

YOUNG HERO GLOBAL PEACE BUILDING PROGRAM

READY TO ORGANIZE GLOBAL PEACE?

LIFECHANGING - MINDBLOWING - TRANSFORMING & INSPIRING

It always seems impossible until it's done – Nelson Mandela

WHY THIS PROGRAM

People worldwide are waiting for world peace.

We take action and make possible what still seems impossible to 99% of all people. World peace is not a distant dream. We can organize this achievable reality together. Not in the way you might initially think, but in a way that accelerates the expansion of consciousness.

Consciousness is the key to world peace

As soon as you learn to perceive from the metavision (the zero-limit perspective), you see how logical, simple, and obvious the solution is. Once you acknowledge that the solution begins within ourselves, you instantly understand what needs to be done: what software update we must undergo and how vital it is to take 100% responsibility for our own functioning—for the way we think, perceive, act, communicate, and organize our perception.

Young people have the right to an inspiring future perspective

The Young Hero program is designed for today's peace pioneers who possess grit, courage, vision, and a passion for world peace. You are our future leaders, professionals, teachers, and parents. You are done with war, division, inequality, and geopolitical tensions, and you need clear solutions and distinct answers to complex life questions. You long for practical Global Peace skills to transcend cultural, political, and religious divides and solve complex problems. These directly applicable skills reveal how problems arise and how we can solve them at the cause, based on a win-win for everyone—skills that will benefit you for a lifetime.

From intention to action to manifestation

Many people intend to realize peace. However, it is essential that we step into action, collaborate, and learn to manifest. This succeeds when we are clear, maintain focus, and learn to trace complex situations back to simplicity and essence. Guided by a clear, unified, and moral compass serving as a framework, reference point, and directional beacon, you will discover the underlying connection between physical reality (that which you see) and metaphysical reality: the universal laws of nature that we cannot see, yet govern our lives 24/7.

The solution is within reach!

THE PROGRAM (BLUEPRINT FOR GLOBAL PEACE)

The Young Hero Global Peace Building Program, the blueprint for world peace, spans 24 months and consists of 5 core components:

1. **SPARK (1 day)**

During this workshop, you will discover what it means to participate in the 24-month program. You will gain a clear understanding of our mission, vision, and the magical strategy we apply. You can ask all your questions and will get a complete overview of time management, energy management, and mutual expectations. You will discover the elegant solution to realizing world peace.

2. **CORE PROGRAM (24 months)**

The 24-month program kicks off with a 5-day LIVE INTENSIVE. At a beautiful location surrounded by nature, we build the foundation for a permanent peace policy. Together with your mentor, you will go through 10 essential and logical steps. These eye-openers expand your consciousness. As a result, you will make new choices and learn to anchor universal core values into your attitude, behavior, mindset, and DNA. You will discover the secret to effortless manifestation.

3. **ONLINE TRAINING**

Following the 5-day INTENSIVE, the online training begins. Weekly online contact is essential to discuss progress, roll out our action plan, strengthen our network, and create Global Impact.

4. **INTERVISION AND SUPERVISION MEETINGS**

Through peer-to-peer (intervision) and supervision groups, we remain engaged, monitor progress, and ensure you can count on support during challenging moments. Collaborating on a level of connection, trust, responsibility, and a shared vision, mission, and philosophy is surprisingly effective—giving you energy, inspiration, and wings.

5. **TRAIN THE TRAINER MASTERCLASS: MINDSET MASTERS**

Worldwide, we need trainers, coaches, and mentors who can inspire others, train them, and introduce them to the essential Global Peace Building skills. In this Masterclass, you will learn the tricks of the trade. In a safe and trusted environment, you can practice and become confident in your role as a trainer, co-trainer, and coach.

WHO IS PAULINE SIBBEL

Researcher | Keynote Speaker | Trainer in Personal Excellence, Excellent Governance & Business Elegance | Expert in Applied Metaphysics and Quantum Psychology | Designer of the Global Peace Building Program | Founder of the Global Serendipity Project | Chair of the Board of the Global Serendipity Foundation

A Brief Introduction...

I was born in Rotterdam (the Netherlands), have two children and two granddaughters, and live with my partner in the countryside of Southern Italy. This oasis of peace, silence, and nature provides the ideal setting for me to roll out my ambitious mission globally:

accelerating the realization of permanent world peace through training in consciousness expansion. As the designer of the Global Peace Building Program, I commit myself 100% every day to achieving world peace. Because it is possible, achievable, and within reach. It is not a utopia. We turn aspirations into reality using an unconventional, pattern-breaking strategy. Though still unfamiliar to many—and therefore unappreciated—it is a strategy that gives everyone energy, inspiration, and wings.

My Journey as a Trainer and Program Designer Began in 1997

Since then, I have been training leaders, directors, executives, and professional teams to achieve a TOP-LEVEL consciousness. This clear and high-frequency state of BEING PRESENT allows individuals to reclaim control, release their baggage, and rediscover the authentic version of themselves. This training forms the foundation for clear communication, solution-oriented action, and excellent leadership: conscious, visionary, authentic, and values-driven.

From Intention to Action to Manifestation

Following forty years of research into the insights of applied metaphysics and effortless manifestation, combined with thirty years of experience as a trainer and educator, I chose to dedicate my expertise to the world's greatest challenge: organizing world peace. I do this through two dedicated programs: the INTERCULTURAL LADIES LEADERSHIP PROGRAM and the YOUNG HEROES GLOBAL PEACE BUILDING PROGRAM. It began as an idea. Thanks to my warm network across various African countries, I was invited to train groups in the core principles of Personal Excellence. An eye-opener for everyone!
