Hello, my name is Pauline Sibbel and I am a joyful, happy, and blessed person

I was born in Rotterdam (the Netherlands), am a mother of two children and a grandmother of two granddaughters. Together with my partner Frank, I live in the countryside of Southern Italy. This oasis of peace, silence, and nature is the ideal place for me to roll out my ambitious mission: organizing global peace within 24 months by training peoples in quantum wisdom. In a way that gives them energy, inspiration, and wings.

My adventure as an independent program designer and mindset trainer began in 1997

From that moment on, I have been training leaders, directors, executives, and professional teams toward TOP-LEVEL consciousness. The clear and high-frequency state of being where people reclaim their control, release their baggage, and rediscover the best and most powerful version of themselves. After thirty years of experience as a trainer in conscious and visionary leadership, I am ready for the quantum leap: to transform intention to action and manifestation and implement a global cultural transformation: organizing permanent world peace.

From utopia to reality

Thanks to my warm network in various African countries. They give me the opportunity to inspire groups of women and young heroes. It is an honour to train a growing team of intrinsically motivated Young Heroes in crucial insights and practical Global Peace Building skills. These people have the courage to move and are passionate to achieving peace. They believe that we can make the impossible possible. We are ready to launch the *Global Peace Building Program*.

To give you a quick and clear picture of who I am and what I do, I share my personal identity passport below.
