- Work-Life Balance: sustainable harmony between your professional and personal life.
- 100% Quality of Life as the ultimate foundation for happiness.

It always seems impossible until it's done – Nelson Mandela

FACTSHEET

WHY

Our world needs women with the courage to act. Women who dare to lead across cultural boundaries, build bridges where walls are being erected, and speak out where voices are being silenced. This program empowers women to co-create sustainable global peace. Together, we can build a clean, stable, and future-proof planet where war, violence, division, poverty, and inequality belong to the past.

Once you see how problems arise, you will also understand how we can solve any problem. And much faster than 99% of people think, believe, or hold possible. Participating means breaking ingrained patterns, becoming aware of your conditioning (deconditioning), and dealing once and for all with excuses, distractions, and procrastination. Getting straight to the point together, and putting an end to the massive waste of time, money, and energy.

WHAT

This unconventional awareness program is a life changing eye-opener!
The SPARK-workhop is the kickstart of the transformative 24-month journey. It is designed for female leaders who refuse to accept the current status quo and are ready to take action. You will discover the solution to the world's most complex problems and learn how to make the impossible possible.

HOW

We possess a limitless consciousness. Through training in the fundamental principles of applied metaphysics and quantum psychology, we unlock potential, activate self-healing capacities, and make possible what still seems impossible to most people: organizing a stable economy, creating an inclusive society where problems are solved, and building a clean, sustainable, and future-proof planet where war, violence, division, unrest, inequality, and poverty belong to the past. By connecting with women worldwide, we will overcome highly diverse cultural, political, and social landscapes to build vital, high performance, healthy, happy and future-proof communities. We foster awareness across all levels of intelligence: mental, emotional, spiritual, social, physical and global. Together, we are building international alliances and securing our permanent legacy as the *architects* of peace.

BLUEPRINT: 24 MONTH PROGRAM

1. **SPARK (One Day Workshop)**

   The SPARK-workhop is the kickstart of the transformative 24-month journey. During this day—packed with eye-openers, icebreakers, and new insights—you will discover the solution to Global Peace. We transcend cultural, political, and religious divisions, showing how global problems arise and how we can solve them. By addressing issues at the root cause, we operate from a win-win perspective for everyone. Entering the high frequency dimension full of opportunities, possibilities, and solutions, you will understand how your own cultural blueprint influences your mindset and leadership style.

2. **BASIC PROGRAM (24 Months)**

   We launch the 24-month program with an inspiring LIVE INTENSIVE surrounded by nature. During this BRAIN BOOTCAMP, we build a long-term commitment to organizing global peace. We work together based on connection, trust, responsibility, freedom, and safety. You will learn to free yourself from the baggage of the past. Together in the here and now, we co-create the ROADMAP for global peace, moving from intention to action and manifestation.

3. **ONLINE TRAINING**

   Following the 5-day INTENSIVE, we begin our online training. Through weekly touchpoints, we discuss progress, roll out our Roadmap, strengthen our network, and create Global Impact.

4. **INTERVISION AND SUPERVISION MEETINGS**

   Through peer-to-peer (intervision) and supervision groups, we remain engaged, monitor progress, and ensure you can count on support during challenging moments. Collaborating on a level of connection, trust, responsibility, and a shared vision, mission, and philosophy is surprisingly effective—giving you energy, inspiration, and wings. In supervision and intervision groups, participants support each other and design concrete initiatives aimed at solving local and global conflicts.

5. **TRAIN-THE-TRAINER MASTERCLASS: MINDSET MASTERS**

   Using the Train-the-Trainer principle, we achieve the Multiplier Effect for worldwide impact, serving as a flywheel for global peace. We train you to become an inspiring trainer, coach, and mentor, teaching you how to transfer Global Peace Building skills to others. This empowers people to launch their own local peace initiatives and mentor groups, proactively contributing to peace. We can only bring peace to the world if we have mastered inner alignment and deep empathy for each other.

SPARK PROGRAM (One Day Workhop)

Be surprised by the simplicity of the solution!

Morning

- **10:00 AM** Welcome, introductions, and guidelines
- **10:30 AM** Short meditation & brief presentation of mission, vision, and strategy
